Update in Ongoing Investigation into Fatal Pursuit in Montgomery County

BALTIMORE, MD (May 24, 2023) – The Independent Investigations Division (IID) of the Office of the Attorney General is delaying the release of the identities of the deceased driver and involved officers in the fatal crash that occurred on May 20 in Montgomery County along I-270 near Route 28.

Typically, within 48 hours of a police-involved fatality that the IID is responsible for investigating, the IID releases the names of the decedent(s) and all involved officers. In the case of the fatal crash that occurred on May 20, investigators are still working to review the evidence they need to make that determination, so we are extending the 48-hour protocol to allow that work to continue. Once investigators' initial review and confirmations are complete, the identities of the decedent and involved officers will be released online.
