1. Nature of the Incident

On November 9, 2021 Clinic of North Texas discovered that they were the victim of cyber attack. Upon discovery of the incident, Clinic of North Texas promptly engaged a specialized cybersecurity firm to conduct a forensic investigation to determine the nature and scope of the incident. The forensic investigation found there was evidence that some of patients’ data may have been accessed by an unauthorized individual. Clinic of North Texas immediately began a thorough review of the potentially accessed files to identify the patients whose sensitive information was present at the time of the incident. This step was necessary so that Clinic of North Texas could send a notice of the incident to ensure the potentially impacted individuals are aware of this Incident. Clinic of North Texas identified the final notice population on February 2, 2022.

Although Clinic of North Texas is unaware of any fraudulent misuse of information, it is possible that individuals' full name, address, date of birth, and limited health information may have been exposed as a result of this unauthorized activity.

As of this writing, Clinic of North Texas has not received any reports of related identity theft since the date of the incident (November 9, 2021 to present).

2. Number of Maryland residents affected.

A total of one hundred and thirty-five (135) Maryland residents have been potentially affected by this incident. Notification letters to these individuals were mailed on March 18, 2022, by first class mail. A sample copy of the notification letter is included with this letter under **Exhibit A**.

3. Steps taken in response to the Incident.

Clinic of North Texas is committed to ensuring the security and privacy of all personal information in its control, and is taking steps to prevent a similar incident from occurring in the future. Upon discovery of the Incident, Clinic of North Texas moved quickly to investigate and respond to the Incident, assessed the security of its systems, and notified the potentially affected individuals. Specifically, Clinic of North Texas engaged a specialized cybersecurity firm to conduct a forensic investigation to determine the nature and scope of the Incident. Additionally, Clinic of North Texas changed all administrator passwords, implemented two-factor authentication and deployed Carbon Black and Huntress to ensure their environment is secure. Lastly, Clinic of North Texas informed our law firm and began identifying the potentially affected individuals in preparation for notice.

Although Clinic of North Texas is not aware of any actual or attempted misuse of the affected personal information, Clinic of North Texas offered twelve (12) months of complimentary credit monitoring and identity theft restoration services through IDX to all individuals to help protect their identity. In order to address any patient concerns and mitigate any exposure or risk of harm following this Incident, Clinic of North Texas has arranged for IDX to provide complimentary credit monitoring services, Dark Web monitoring services, and identity theft protection services to our patients free of charge for a period of twelve (12) months. Additional Important Information

Credit Reports: You may obtain a copy of your credit report, free of charge, whether or not you suspect any unauthorized activity on your account. You may obtain a free copy of your credit report from each of the three nationwide credit reporting agencies. To order your free credit report, please visit www.annualcreditreport.com, or call toll-free at 1-877-322-8228. You can also order your annual free credit report by mailing a completed Annual Credit Report Request Form (available at <https://www.consumer.ftc.gov/articles/0155-free-credit-reports>) to: Annual Credit Report Request Service, P.O. Box 105281, Atlanta, GA, 30348-5281.

Fraud Alerts: You can place fraud alerts with the three credit bureaus by phone or online. A fraud alert tells creditors to follow certain procedures, including contacting you, before they open any new accounts or change your existing accounts. For that reason, placing a fraud alert can protect you, but also may delay you when you seek to obtain credit. As of September 21, 2018, initial fraud alerts last for one year. Victims of identity theft can also get an extended fraud alert for seven years.
