Dear Attorney General Frosch:

We are writing on behalf of our client, Quickstar Logistics ("Quickstar")(located at 23480 Rock Haven Way, Suite 100, Dulles, VA 20166), to notify you of a data security incident involving thirteen (13) Maryland residents.¹

Nature

On September 24, 2021, Quickstar discovered a ransomware incident that impacted its networks and servers. After discovering the incident, Quickstar quickly took steps to secure and safely restore its systems and operations. Further, Quickstar engaged outside counsel and third-party forensic experts to assist in the remediation efforts and conduct a thorough investigation of the incident's nature and scope. Unfortunately, Quickstar could not determine the exact cause of or when the incident began. However, since discovering the incident, Quickstar secured its and removed all threats from our systems.

Since it was unable to confirm the exact personal information the unauthorized individual obtained, Quickstar opted to provide notifications to potentially impacted individuals out of an abundance of caution. Further, after reviewing the potentially affected information, Quickstar identified thirteen (13) Maryland residents. Finally, on January 27, 2022, Quickstar located these individuals' most recent contact information and addresses. *However, as of now, we have no evidence that this incident has led to identity theft or financial fraud.*

The personal information included first and last name, social security number, and financial account information.

¹ By providing this notice, Quickstar does not waive any rights or defenses regarding the applicability of Maryland law, the applicability of the Maryland's data event notification statute, or personal jurisdiction.

Notice and Quickstar Prestige's Response to the Event

On February 2, 2022, Quickstar will mail a written notification to the potentially affected Maryland residents, pursuant to Md. Code Ann., Com. Law § 14-3504, in a substantially similar form as the enclosed letter (attached as Exhibit A).

Additionally, Quickstar is providing these potentially impacted individuals the following:

- Free access to credit monitoring services for one year through Sontiq;
- Guidance on ways to protect against identity theft and fraud, including steps to report any suspected activities or events of identity theft or fraud to their credit card company and/or bank.

- A reminder to remain vigilant for incidents of fraud and identity theft by reviewing account statements and monitoring free credit reports; and
- Encouragement to contact the Federal Trade Commission and law enforcement to report attempted or actual identity theft and fraud.

Further, Quickstar provided notice to the applicable government regulators, officials, and other Attorneys General (as necessary). Finally, Quickstar is working to implement any necessary additional safeguards, enhance and improve its policies and procedures related to data protection, improve its cybersecurity infrastructure, and further train its employees on best practices to minimize the likelihood of this type of incident occurring again.

Security Freeze (also known as a Credit Freeze). Following is general information about how to request a security freeze from the three credit reporting agencies. While we believe this information is accurate, you should contact each agency for the most accurate and up-to-date information. A security freeze prohibits a credit reporting agency from releasing any information from a consumer's credit report without written authorization. In addition, in some states, the agency cannot charge you to place, lift or remove a security freeze. There might be additional information required, and as such, to find out more information, please contact the three nationwide credit reporting agencies (contact information provided below).

Consider Placing a Fraud Alert on Your Credit Report. You may want to consider placing a fraud alert on your credit report. An initial fraud alert is free and will stay on your credit file for at least twelve months. The alert informs creditors of possible fraudulent activity within your report and requests that the creditor contact you before establishing any accounts in your name. To place a fraud alert on your credit report, contact any of the three nationwide credit reporting agencies identified above. Additional information is available at <https://www.equifax.com/personal/credit-report-services/credit-fraud-alerts/>

Remain Vigilant, Review Your Account Statements and Notify Law Enforcement of Suspicious Activity.

As a precautionary measure, we recommend that you remain vigilant by closely reviewing your account statements and credit reports. If you detect any suspicious activity on an account, we strongly advise that you promptly notify the financial institution or company that maintains the account. Further, you should promptly report any fraudulent activity or any suspected incidence of identity theft to proper law enforcement authorities, including your state attorney general and the Federal Trade Commission (FTC). To file a complaint or to contact the FTC, you can (1) send a letter to the *Federal Trade Commission*, Consumer Response Center, 600 Pennsylvania Avenue NW, Washington, DC 20580; (2) go to IdentityTheft.gov/databreach; or (3) call 1-877-ID-THEFT (877-438-4338). Complaints filed with the FTC will be added to the FTC's Identity Theft Data Clearinghouse, a database made available to law enforcement agencies.

Take Advantage of Additional Free Resources on Identity Theft. We recommend that you review the tips provided by the Federal Trade Commission's Consumer Information website, a valuable resource with some helpful tips on how to protect your information.
