Monitor Your Accounts

Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also directly contact the three major credit reporting bureaus listed below to request a free copy of your credit report.

Consumers have the right to place an initial or extended “fraud alert” on a credit file at no cost. An initial fraud alert is a one (1) year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert,

which is a fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any one of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer’s express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a credit freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a credit freeze on your credit report. To request a credit freeze, you will need to provide the following information:

1. full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. social Security number;
3. date of birth;
4. addresses for the prior two to five years;
5. proof of current address, such as a current utility bill or telephone bill;
6. a legible photocopy of a government-issued identification card (state driver’s license or ID card, etc.); and
7. a copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if you are a victim of identity theft.

Should you wish to place a credit freeze, please contact the three major credit reporting bureaus listed below:

Re: Notice of Data Event

To Whom It May Concern:

We continue to represent American Trading and Production Corporation (“ATAPCO”) located at 1 South Street, Suite 2800, Baltimore, Maryland 21202, and write to supplement our July 13, 2022 notice to your office. Subsequent to that notice, ATAPCO identified six hundred forty-one (641) additional Maryland residents that may have been affected by the event. This notice may be further supplemented with any new significant facts learned subsequent to its submission. By providing this notice, ATAPCO does not waive any rights or defenses regarding the applicability of Maryland law, the applicability of the Maryland data event notification statute, or personal jurisdiction.

Nature of the Data Event

Between May 4, 2022, and May 5, 2022, ATAPCO became aware of operational issues with its servers and learned of suspicious activity in another part of the organization. On or about May 12, 2022, ATAPCO became aware of further suspicious activity on its computer network. ATAPCO immediately launched an investigation and determined that certain workstations and systems had been infected with malware, which prevented access to certain files on the system. Through the investigation, ATAPCO determined that, between February 17, 2022, and May 5, 2022, an unauthorized actor accessed certain systems and downloaded information stored on those systems.

While the investigation was ongoing, ATAPCO provided notification to individuals for whom it was determined that personal information was present in the involved files. ATAPCO also provided an initial notice of data event to your office on July 13, 2022, a copy of which is attached

as **Exhibit A**. ATAPCO also preliminary provided an informal notice of the event to current employees with an offering of identity monitoring services. In an abundance of caution, ATAPCO undertook a comprehensive and time-intensive review of the involved files with the assistance of third-party data review specialists to determine if they contain sensitive information and to identify other potentially affected individuals. Following the review, ATAPCO worked diligently to conduct additional manual review of its internal files to confirm the identities of impacted individuals and to locate the address information to be able to provide notice. Once this review was completed on September 8, 2023, ATAPCO worked to secure the services of a notification vendor to assist with mailing letters to impacted individuals. Please note that we are unaware of any actual or attempted misuse of individuals' information as a result of this incident.

The information that could have been subject to unauthorized access includes name, Social Security number, driver's license number, financial account information, medical information, health insurance information, full access credentials, and passport number.

Notice to Maryland Residents

In July 2022, while the investigation was ongoing, ATAPCO provided preliminary notice of the event to current employees and members of the board of directors with an offering of identity monitoring services. Following the conclusion of the investigation, data mining, and review of internal records to locate contact information for impacted individuals, on or about November 10, 2023, ATAPCO continued providing written notice of this incident to six hundred forty-one (641) additional Maryland residents. Written notice is being provided in substantially the same form as the letter attached here as **Exhibit B**.

Other Steps Taken and To Be Taken

Upon discovering the event, ATAPCO moved to investigate and respond to the incident, assess the security of ATAPCO systems, and identify potentially affected individuals. Further, ATAPCO notified law enforcement regarding the event and is working to implement additional safeguards and training to its employees. ATAPCO is providing access to credit monitoring services for twenty-four (24) months, through Epiq, to individuals whose personal information was potentially affected by this incident, at no cost to these individuals.

Additionally, ATAPCO is providing impacted individuals with guidance on how to better protect against identity theft and fraud, including advising individuals to report any suspected incidents of identity theft or fraud to their credit card company and/or bank. ATAPCO is providing individuals with information on how to place a fraud alert and security freeze on one's credit file, the contact details for the national consumer reporting agencies, information on how to obtain a free credit report, a reminder to remain vigilant for incidents of fraud and identity theft by reviewing account statements and monitoring free credit reports, and encouragement to contact the Federal Trade Commission, their state Attorney General, and law enforcement to report attempted or actual identity theft and fraud. ATAPCO is also providing written notice of this incident to relevant state regulators and the consumer reporting agencies, as necessary.

NOTICE OF <<Variable Header>>

Dear <<Name 1>>:

American Trading and Production Corporation (“ATAPCO”) is writing to inform you of a data event that may involve some of your information. Although we have no evidence of identity theft or fraud occurring as a result of this event, this letter provides details of the event, our response to it, and resources available to you to help protect your information, should you feel it is appropriate to do so.

What Happened? Between May 4, 2022, and May 5, 2022, ATAPCO became aware of operational issues with its servers and learned of suspicious activity in another part of the organization. On or about May 12, 2022, ATAPCO became aware of further suspicious activity on its computer network. ATAPCO immediately launched an investigation and determined that certain workstations and systems had been infected with malware, which prevented access to certain files on the system. ATAPCO worked with third-party forensic specialists to investigate the nature and scope of the activity.

Through our investigation, we determined that, between February 17, 2022, and May 5, 2022, an unauthorized actor may have had access to certain systems that stored personal information and took some information from our systems. In an abundance of caution, ATAPCO undertook a comprehensive and time-intensive review of the involved files with the assistance of third-party data review specialists to determine if they contain sensitive information. Following the review, ATAPCO worked diligently to conduct additional manual review of our internal files to confirm the identities of impacted individuals and to locate the address information to be able to provide this notice. This review, which was completed on September 8, 2023, determined your information was present in the involved files.

What Information Was Involved? Our investigation determined the following types of your information may have been impacted by this incident: your name, and <<Breached Elements>>. At this time, we have no indication that your information was subject to actual misuse as a result of this incident.

What We Are Doing. We take this event and the security of personal information in our care very seriously. Upon learning of the activity, ATAPCO promptly took steps to ensure the security of our systems and investigate the event. We also reported the incident to law enforcement. As part of our ongoing commitment to the privacy of information in our care, we are implementing additional technical security measures to strengthen the security of our systems. We are also reviewing and enhancing our existing data privacy policies and procedures. We are notifying state regulators, as necessary.

As an added precaution, we are also offering twenty-four (24) months of complimentary access to credit monitoring services through Equifax. Individuals who wish to receive these services must enroll by following the attached enrollment instructions.

What You Can Do. We encourage you to remain vigilant against incidents of identity theft and fraud by reviewing your account statements and monitoring your free credit reports for suspicious activity. You may also review the information contained in the attached *Steps You Can Take to Help Protect Personal Information*. There you will also find more information on the complimentary credit monitoring services we are making available to you. While ATAPCO will cover the cost of these services, you will need to enroll yourself in the services we are offering, if you would like to do so.

¹WebScan searches for your Social Security Number, up to 5 passport numbers, up to 6 bank account numbers, up to 6 credit/debit card numbers, up to 6 email addresses, and up to 10 medical ID numbers. WebScan searches thousands of Internet sites where consumers' personal information is suspected of being bought and sold, and regularly adds new sites to the list of those it searches. However, the Internet addresses of these suspected Internet trading sites are not published and frequently change, so there is no guarantee that we are able to locate and search every possible Internet site where consumers' personal information is at risk of being traded. ²The Automatic Fraud Alert feature is made available to consumers by Equifax Information Services LLC and fulfilled on its behalf by Equifax Consumer Services LLC. ³Locking your Equifax credit report will prevent access to it by certain third parties. Locking your Equifax credit report will not prevent access to your credit report at any other credit reporting agency. Entities that may still have access to your Equifax credit report include: companies like Equifax Global Consumer Solutions, which provide you with access to your credit report or credit score, or monitor your credit report as part of a subscription or similar service; companies that provide you with a copy of your credit report or credit score, upon your request; federal, state and local government agencies and courts in certain circumstances; companies using the information in connection with the underwriting of insurance, or for employment, tenant or background screening purposes; companies that have a current account or relationship with you, and collection agencies acting on behalf of those whom you owe; companies that authenticate a consumer's identity for purposes other than granting credit, or for investigating or preventing actual or potential fraud; and companies that wish to make pre-approved offers of credit or insurance to you. To opt out of such pre-approved offers, visit www.optoutprescreen.com. ⁴The Identity Theft Insurance benefit is underwritten and administered by American Bankers Insurance Company of Florida, an Assurant company, under group or blanket policies issued to Equifax, Inc., or its respective affiliates for the benefit of its Members. Please refer to the actual policies for terms, conditions, and exclusions of coverage. Coverage may not be available in all jurisdictions.

Monitor Your Accounts

Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also directly contact the three major credit reporting bureaus listed below to request a free copy of your credit report.

Consumers have the right to place an initial or extended “fraud alert” on a credit file at no cost. An initial fraud alert is a one (1) year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any one of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer’s express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a credit freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a credit freeze on your credit report. To request a credit freeze, you will need to provide the following information:

1. full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. date of birth;
4. addresses for the prior two to five years;
5. proof of current address, such as a current utility bill or telephone bill;
6. a legible photocopy of a government-issued identification card (state driver’s license or ID card, etc.); and
7. a copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if you are a victim of identity theft.

Should you wish to place a credit freeze, please contact the three major credit reporting bureaus listed below:
