RE: Privacy Breach Notification
UHC File #: 469929

Dear Office of the Attorney General:

UnitedHealthcare (“UHC” or “We”) are writing to inform you of a recent data incident that affected a Maryland resident. On June 27, 2022 we discovered that our business associate, OneTouchPoint “OTP”, was the victim of a ransomware attack. Per OTP’s investigation, they discovered that the incident occurred on April 27, 2022.

We recently confirmed that one (1) Maryland resident was impacted as a result of the incident. The information disclosed may have included a combination of first and last name, address, phone number, email address, gender, date of birth, medical record number, health insurance information, appointment information, laboratory results, as well as medical information related to services and assessment completed through Matrix Medical Network. This incident did not involve disclosure of the consumer’s Social Security number, driver’s license number or any financial account information.

Written notice will be provided to the one (1) Maryland resident affected by this incident on or about August 18, 2022. A copy of the template notice letter that was sent to affected individuals is enclosed.

The incident did not directly impact any UHC systems, and UHC is notifying other regulatory agencies as required.

We take such matters as this very seriously. There is no evidence to suggest that any affected individuals’ information has been misused in anyway. OTP has also established a dedicated toll-free number for members of the affected population to call, if they have any questions. Additionally, the notification letter sent to affected individuals recommends steps they can take to protect their identity, including informing them that they should report suspected incidents of identity theft to local law enforcement or the attorney general. It also explains to them how to place a fraud alert and/or security freeze on their credit file and provides them with the contact information for the national credit reporting agencies and the Federal Trade Commission.

Protecting the personal information of individuals is very important to us. We maintain an information security program and have worked with OTP to put additional protections in place to prevent such incidents from occurring in the future, including retraining staff, reinforcing existing policies and practices, and evaluating additional safeguards.

If you have any questions about this incident, please contact me directly.

Sincerely,

Notice of Data [Event/Breach]

Dear <<Name 1>> <<Name 2>>:

OneTouchPoint, Inc. (“OTP”) writes to notify you of an incident that may affect the privacy of some of your information. OTP is a vendor who provides printing and mailing services to UnitedHealthcare “UHC” and Southwestern Health through its contract with Matrix Medical Network. To provide these services, OTP was provided certain information related to a health assessment you received. This letter provides details of the incident, our response, and steps you may take to better protect against possible misuse of your information, should you feel it appropriate to do so.

What Happened? On April 28, 2022, OTP discovered encrypted files on certain computer systems. We immediately launched an investigation, with the assistance of third-party forensic specialists, to determine the nature and scope of the activity. Our investigation determined that there was unauthorized access to certain of our servers beginning on April 27, 2022. Through the investigation, we learned that we would be unable to determine what specific files the unauthorized actor viewed within our network. On or about June 27, 2022, UHC was notified that OTP had determined that the impacted systems contained certain information related to you. While we were unable to say definitively if your information was accessed by the unauthorized actor, we are notifying you of the event in an abundance of caution. OTP has seen no evidence of misuse of any information related to this incident. Neither UHC or Southwestern Health’s systems were impacted by this incident.

What Information Was Involved? OTP determined that the following information related to you was present on the impacted OTP servers: your first and last name, address, phone number, email address, gender, date of birth, medical record number, health insurance information, appointment information, laboratory results, as well as medical information related to services and assessment completed through Matrix Medical Network. Your social security number was not impacted by this event.

What We Are Doing. Upon discovery, we immediately commenced an investigation to confirm the nature and scope of the incident. We reported this incident to the law enforcement, and we are taking steps to implement additional safeguards and review policies and procedures relating to data privacy and security.

What You Can Do. OTP encourages you to remain vigilant against incidents of identity theft and fraud by reviewing your account statements and monitoring free credit reports for suspicious activity and to detect errors. You can review the enclosed *Steps You Can Take to Help Protect Personal Information* for additional details on how to take steps to protect your information, should you feel it is necessary to do so.

Furthermore, as a precaution to protect against misuse of your health information, we recommend that you regularly monitor the explanation of benefits statements that you receive from your plan to check for any unfamiliar activity. If you notice any health care services that you did not receive listed on an explanation of benefits statement, please contact your plan at the number on your Member ID card. If you do not regularly receive explanation of benefits statements, you may request that your plan send you these statements following the provision of any health care services in your name or plan number by contacting your plan at the number on your Member ID card.

For More Information. We understand that you may have questions about this incident that are not addressed in this letter. To ensure your questions are answered in a timely manner, please call 877-237-3894, Monday through Friday, from 8:00 a.m. to 8:00 p.m. Central Time. Additionally, you can write to us at OneTouchPoint, Inc., Attention: Incident Response, 1225 Walnut Ridge Drive, Hartland, Wisconsin 53029.

OTP takes the privacy and security of the information in our care seriously. We sincerely regret any inconvenience or concern this incident may cause you

Sincerely,

A handwritten signature in cursive script, appearing to read "Mike R Fox".

STEPS YOU CAN TAKE TO HELP PROTECT PERSONAL INFORMATION

Monitor Your Accounts

Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also directly contact the three major credit reporting bureaus listed below to request a free copy of your credit report.

Consumers have the right to place an initial or extended “fraud alert” on a credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any one of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer’s express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a credit freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a credit freeze on your credit report. To request a security freeze, you will need to provide the following information:

1. Full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. Addresses for the prior two to five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver’s license or ID card, etc.); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if you are a victim of identity theft.

Should you wish to place a credit freeze, please contact the three major credit reporting bureaus listed below:

Additional Information

You may further educate yourself regarding identity theft, fraud alerts, credit freezes, and the steps you can take to protect your personal information by contacting the consumer reporting bureaus, the Federal Trade Commission, or your state Attorney General. The Federal Trade Commission may be reached at: 600 Pennsylvania Avenue NW, Washington, DC 20580; www.identitytheft.gov; 1-877-ID-THEFT (1-877-438-4338); and TTY: 1-866-653-4261. The Federal Trade

Commission also encourages those who discover that their information has been misused to file a complaint with them. You can obtain further information on how to file such a complaint by way of the contact information listed above. You have the right to file a police report if you ever experience identity theft or fraud. Please note that in order to file a report with law enforcement for identity theft, you will likely need to provide some proof that you have been a victim. Instances of known or suspected identity theft should also be reported to law enforcement and your state Attorney General. This notice has not been delayed by law enforcement.
