Re: Givens Pursley, LLP (“Givens Pursley”) – Incident Notification

Dear Mr. Frosh:

McDonald Hopkins PLC represents Givens Pursley, LLP (“Givens Pursley”). I am writing to provide notification of an incident at Givens Pursley that may affect the security of personal information of approximately one (1) Maryland resident. By providing this notice, Givens Pursley does not waive any rights or defenses regarding the applicability of Maryland law or personal jurisdiction.

Givens Pursley determined that unauthorized access to its network occurred on November 19, 2021. Upon learning of this issue, Givens Pursley immediately contained the threat and launched an investigation in consultation with outside cybersecurity professionals, which determined that an unauthorized party potentially removed a limited number of files and folders from Givens Pursley’s network.

After an extensive forensic investigation and manual document review, Givens Pursley discovered on September 8, 2022 that the files and folders that were potentially removed contained personally identifiable information and/or protected health information pertaining to a limited number of individuals, such as full names, addresses, dates of birth, Social Security numbers, driver’s license / state identification numbers, financial account information, clinical and/or treatment information, medications information, medical provider information, patient identification numbers, and health insurance information. Not all information was included for all individuals.

Givens Pursley is providing the affected resident with written notification of this incident commencing on or about November 4, 2022 in substantially the same form as the letter attached hereto. Individuals whose Social Security numbers may have been impacted are being provided with twelve months of complimentary credit monitoring services. Givens Pursley is also advising the affected resident about the process for placing fraud alerts and/or security freezes on their credit files and obtaining free credit reports. The affected resident is also being provided with the contact information for the consumer reporting agencies and the Federal Trade Commission.

A fraud alert tells creditors to contact you personally before they open any new accounts. To place a fraud alert, call any one of the three major credit bureaus at the numbers listed below. As soon as one credit bureau confirms your fraud alert, they will notify the others.

P.O. Box 2000
Chester, PA 19016-2000

3. **Consider Placing a Security Freeze on Your Credit File.**

If you are very concerned about becoming a victim of fraud or identity theft, you may request a "Security Freeze" be placed on your credit file, at no charge. A security freeze prohibits, with certain specific exceptions, the consumer reporting agencies from releasing your credit report or any information from it without your express authorization. You may place a security freeze on your credit report by contacting all three nationwide credit reporting companies at the numbers below and following the stated directions or by sending a request in writing, by mail, to all three credit reporting companies:

Equifax Security Freeze

P.O. Box 105788
Atlanta, GA 30348
<https://www.equifax.com/personal/credit-report-services/credit-freeze/>
1-800-349-9960

Experian

Security Freeze
P.O. Box 9554
Allen, TX 75013
<http://experian.com/freeze>
1-888-397-3742

TransUnion Security Freeze

P.O. Box 2000
Woodlyn, PA 19094
<https://www.transunion.com/credit-freeze>
1-888-909-8872

In order to place the security freeze, you'll need to supply your name, address, date of birth, Social Security number and other personal information. After receiving your freeze request, each credit reporting company will send you a confirmation letter containing a unique PIN (personal identification number) or password. Keep the PIN or password in a safe place. You will need it if you choose to lift the freeze.

If your personal information has been used to file a false tax return, to open an account or to attempt to open an account in your name or to commit fraud or other crimes against you, you may file a police report in the City in which you currently reside.

If you do place a security freeze *prior* to enrolling in the credit monitoring service as described above, you will need to remove the freeze in order to sign up for the credit monitoring service. After you sign up for the credit monitoring service, you may refreeze your credit file.

4. Obtaining a Free Credit Report.

Under federal law, you are entitled to one free credit report every 12 months from each of the above three major nationwide credit reporting companies. Call 1-877-322-8228 or request your free credit reports online at www.annualcreditreport.com. Once you receive your credit reports, review them for discrepancies. Identify any accounts you did not open or inquiries from creditors that you did not authorize. Verify all information is correct. If you have questions or notice incorrect information, contact the credit reporting company.

5. Additional Helpful Resources.

Even if you do not find any suspicious activity on your initial credit reports, the Federal Trade Commission (FTC) recommends that you check your credit reports periodically. Checking your credit report periodically can help you spot problems and address them quickly.

If you find suspicious activity on your credit reports or have reason to believe your information is being misused, call your local law enforcement agency and file a police report. Be sure to obtain a copy of the police report, as many creditors will want the information it contains to absolve you of the fraudulent debts. You may also file a complaint with the FTC by contacting them on the web at www.ftc.gov/idtheft, by phone at 1-877-IDTHEFT (1-877-438-4338), or by mail at Federal Trade Commission, Consumer Response Center, 600 Pennsylvania Avenue, NW, Washington, DC 20580. Your complaint will be added to the FTC's Identity Theft Data Clearinghouse, where it will be accessible to law enforcement for their investigations. In addition, you may obtain information from the FTC about fraud alerts and security freezes.

6. Protecting Your Medical Information.

We have no evidence that your medical information involved in this incident was or will be used for any unintended purposes. However, the following practices can provide additional safeguards to protect against medical identity theft.

- Only share your health insurance cards with your health care providers and other family members who are covered under your insurance plan or who help you with your medical care.
- Review your "explanation of benefits statement" which you receive from your health insurance company. Follow up with your insurance company or care provider for any items you do not recognize. If necessary, contact the care provider on the explanation of benefits statement and ask for copies of medical records from the date of the potential access (noted above) to current date.
- Ask your insurance company for a current year-to-date report of all services paid for you as a beneficiary. Follow up with your insurance company or the care provider for any items you do not recognize.
