

We are writing to inform you of an incident that affected the security of health information of nine (9) Maryland residents. On April 4, 2023 Maimonides Medical Center (MMC) in Brooklyn, New York learned that there was an unauthorized access to one of its servers. Health information regarding the 9 Maryland residents was on that server. The information available included name, address, diagnosis and treatment information and name of provider and insurance plan, but no social security numbers or financial information about the Maryland residents was available. Attached to this email is a copy of the notification that was sent to all impacted individuals. MMC engaged information technology consultant to conduct a forensic analysis of the incident and to assist in implementing safeguards to prevent similar incidents from occurring the in the future. Access to the affected server now requires network multi-factor authentication.

Please let us know if you have any additional questions.

Sincerely,

Stacey L. Gulick

RE: Important Security Notification. Please read this entire letter.

Dear Sample A. Sample:

Maimonides Medical Center recently discovered an incident that may affect the security of your personal information. On April 4, 2023, we learned that an unauthorized entity had gained access to patient information on one of our computer servers. Upon investigation, we learned that the unauthorized entity had access to the server from March 18, 2023 to April 4, 2023. We have identified that certain of your information was stored on that server. The unauthorized entity was not able to access your electronic medical record, but could have accessed information containing your name, address, or limited clinical information, including diagnosis, treatment information, the name of your provider or insurance plan.

Immediately upon identification of the incident, we took measures to prevent further access to the information on the server by unauthorized parties. We also hired outside cybersecurity experts to ensure that safeguards, such as additional authentication, were put in place to reduce the likelihood that a similar event could occur in the future.

Maintaining the security of our patients' information is exceptionally important to us and I want to assure you that we invest in the technology, training, personnel and outside experts necessary to protect your privacy. We continuously update and upgrade our systems based on current best practices and are committed to taking all appropriate steps to limit risk of any future incident.

Furthermore, to help protect your identity, we are offering complimentary access to Experian IdentityWorksSM for twenty-four (24) months.

If you believe there was fraudulent use of your information as a result of this incident and would like to discuss how you may be able to resolve those issues, please reach out to an Experian agent. If, after discussing your situation with an agent, it is determined that identity restoration support is needed then an Experian Identity Restoration agent is available to work with you to investigate and resolve each incident of fraud that occurred from the date of the incident (including, as appropriate, helping you with contacting credit grantors to dispute charges and close accounts; assisting you in placing a freeze on your credit file with the three major credit bureaus; and assisting you with contacting government agencies to help restore your identity to its proper condition).

Please note that Identity Restoration is available to you for twenty-four (24) months from the date of this letter and does not require any action on your part at this time. The Terms and Conditions for this offer are located at www.ExperianIDWorks.com/restoration.
