Dear Attorney General Brown:

We are writing on behalf of our client, BankGloucester, to notify you of a security incident involving (18) Maryland residents. BankGloucester is headquartered at 160 Main St, Gloucester, MA 01930.

On July 12, 2023, BankGloucester was notified by their vendor, Darling Consulting Group (DCG), that it was affected by the MOVEit software vulnerability on May 30, 2023. DCG provides financial consulting and advisory services to the Bank that involves the bank sending data to DCG. DCG used MOVEit Transfer for the transfer of this data in order for DCG to provide their services to the Bank. After receiving notice from DCG, BankGloucester immediately launched an investigation to determine what information, if any, of its customers were potentially impacted by this incident. On August 16, 2023, the investigation determined that the personal information of (18) Maryland residents were impacted including their names, Social Security numbers and/or financial account numbers.

On August 22, 2023, BankGloucester began mailing notification letters via United States Postal Service First-Class mail to the individuals whose information may have been involved in accordance with the Federal Interagency Guidance on Response Programs for Unauthorized Access to Customer Information and Customer Notice issued by the FDIC.¹ The letter was

Dear <<Name 1>>,

I am writing to inform you of a recent incident experienced by a third-party consultant to the Bank that may affect the security of your personal information. Though we have no evidence that anyone's information was misused, we are nonetheless informing you of this incident, and we want to assure you that we take this matter very seriously.

What Happened

On May 31, 2023, Progress Software, the developer of the MOVEit Transfer software used by financial institutions, government agencies, health care groups and various businesses around the world, issued an advisory about a significant vulnerability in their software. This flaw could potentially allow unauthorized individuals to access servers hosting the software. As a result of this vulnerability, unauthorized individuals accessed systems that store data belonging to hundreds of organizations across the world. On July 12, 2023, we received notification from our vendor, Darling Consulting Group (DCG), that it was affected by the MOVEit vulnerability. DCG provides financial consulting and advisory services to the Bank that requires the transfer of data. DCG utilized MOVEit Transfer for this purpose. In response to the notification from DCG, we immediately launched an investigation to assess the potential impact of this incident on our customers.

What Information Was Involved

On July 28, 2023, our investigation determined that the data may have included your name, date of birth, Social Security number, and/or account number. Again, at this time, we have no confirmation that your information has been subject to misuse as a result of this incident.

¹The credit scores provided are based on the VantageScore® 3.0 model. For three-bureau VantageScore credit scores, data from Equifax®, Experian®, and TransUnion® are used respectively. Any one-bureau VantageScore uses Equifax data. Third parties use many different types of credit scores and are likely to use a different type of credit score to assess your creditworthiness. ²Credit monitoring from Experian and TransUnion will take several days to begin. ³WebScan searches for your Social Security Number, up to 5 passport numbers, up to 6 bank account numbers, up to 6 credit/debit card numbers, up to 6 email addresses, and up to 10 medical ID numbers. WebScan searches thousands of Internet sites where consumers' personal information is suspected of being bought and sold, and regularly adds new sites to the list of those it searches. However, the Internet addresses of these suspected Internet trading sites are not published and frequently change, so there is no guarantee that we are able to locate and search every possible Internet site where consumers' personal information is at risk of being traded. ⁴The Automatic Fraud Alert feature is made available to consumers by Equifax Information Services LLC and fulfilled on its behalf by Equifax Consumer Services LLC. ⁵Locking your Equifax credit report will prevent access to it by certain third parties. Locking your Equifax credit report will not prevent access to your credit report at any other credit reporting agency. Entities that may still have access to your Equifax credit report include: companies like Equifax Global Consumer Solutions, which provide you with access to your credit report or credit score, or monitor your credit report as part of a subscription or similar service; companies that provide you with a copy of your credit report or credit score, upon your request; federal, state and local government agencies and courts in certain circumstances; companies using the information in connection with the underwriting of insurance, or for employment, tenant or background screening purposes; companies that have a current account or relationship with you, and collection agencies acting on behalf of those whom you owe; companies that authenticate a consumer's identity for purposes other than granting credit, or for investigating or preventing actual or potential fraud; and companies that wish to make pre-approved offers of credit or insurance to you. To opt out of such pre-approved offers, visit www.optoutprescreen.co ⁶The Identity Theft Insurance benefit is underwritten and administered by American Bankers Insurance Company of Florida, an Assurant company, under group or blanket policies issued to Equifax, Inc., or its respective affiliates for the benefit of its Members. Please refer to the actual policies for terms, conditions, and exclusions of coverage. Coverage may not be available in all jurisdictions.

If you believe you are the victim of identity theft or have reason to believe your personal information has been misused, you should immediately contact the Federal Trade Commission and/or the Attorney General's office in your state. You can obtain information from these sources about steps an individual can take to avoid identity theft as well as information about fraud alerts and security freezes. Fraud Alerts and Credit or Security Freezes:

Fraud Alerts: There are two types of general fraud alerts you can place on your credit report to put your creditors on notice that you may be a victim of fraud—an initial alert and an extended alert. You may ask that an initial fraud alert be placed on your credit report if you suspect you have been, or are about to be, a victim of identity theft. An initial fraud alert stays on your credit report for one year. You may have an extended alert placed on your credit report if you have already been a victim of identity theft with the appropriate documentary proof. An extended fraud alert stays on your credit report for seven years.

To place a fraud alert on your credit reports, contact one of the nationwide credit bureaus. A fraud alert is free. The credit bureau you contact must tell the other two, and all three will place an alert on their versions of your report.

For those in the military who want to protect their credit while deployed, an Active Duty Military Fraud Alert lasts for one year and can be renewed for the length of your deployment. The credit bureaus will also take you off their marketing lists for pre-screened credit card offers for two years, unless you ask them not to.

Credit or Security Freezes: You have the right to put a credit freeze, also known as a security freeze, on your credit file, free of charge, which makes it more difficult for identity thieves to open new accounts in your name. That's because most creditors need to see your credit report before they approve a new account. If they can't see your report, they may not extend the credit.

How do I place a freeze on my credit reports? There is no fee to place or lift a security freeze. Unlike a fraud alert, you must separately place a security freeze on your credit file at each credit reporting company. For information and instructions to place a security freeze, contact each of the credit reporting agencies at the addresses below:

- **Experian Security Freeze**, PO Box 9554, Allen, TX 75013, www.experian.com
- **TransUnion Security Freeze**, PO Box 160, Woodlyn, PA 19094, www.transunion.com
- **Equifax Security Freeze**, PO Box 105788, Atlanta, GA 30348, www.equifax.com

You'll need to supply your name, address, date of birth, Social Security number and other personal information.

After receiving your freeze request, each credit bureau will provide you with a unique PIN (personal identification number) or password. Keep the PIN or password in a safe place. You will need it if you choose to lift the freeze.

How do I lift a freeze? A freeze remains in place until you ask the credit bureau to temporarily lift it or remove it altogether. If the request is made online or by phone, a credit bureau must lift a freeze within one hour. If the request is made by mail, then the bureau must lift the freeze no later than three business days after getting your request.

If you opt for a temporary lift because you are applying for credit or a job, and you can find out which credit bureau the business will contact for your file, you can save some time by lifting the freeze only at that particular credit bureau. Otherwise, you need to make the request with all three credit bureaus.
