Additional Important Information

For residents of all states:

Fraud Alerts: You can place fraud alerts with the three credit bureaus by phone and online with Equifax (https://assets.equifax.com/assets/personal/Fraud_Alert_Request_Form.pdf); TransUnion (<https://www.transunion.com/fraud-alerts>); or Experian (<https://www.experian.com/fraud/center.html>). A fraud alert tells creditors to follow certain procedures, including contacting you, before they open any new accounts or change your existing accounts. For that reason, placing a fraud alert can protect you, but also may delay you when you seek to obtain credit. As of September 21, 2018, initial fraud alerts last for one year. Victims of identity theft can also get an extended fraud alert for seven years. The phone numbers for all three credit bureaus are below.

Monitoring: You should always remain vigilant and monitor your accounts for suspicious or unusual activity.

Security Freeze: You also have the right to place a security freeze on your credit report. A security freeze is intended to prevent credit, loans, and services from being approved in your name without your consent. To place a security freeze on your credit report, you need to make a request to each consumer reporting agency. You may make that request by certified mail, overnight mail, regular stamped mail, or by following the instructions found at the websites listed below. The following information must be included when requesting a security freeze (note that if you are requesting a credit report for your spouse or a minor under the age of 16, this information must be provided for him/her as well): (1) full name, with middle initial and any suffixes; (2) Social Security number; (3) date of birth; (4) current address and any previous addresses for the past five years; and (5) any applicable incident report or complaint with a law enforcement agency or the Registry of Motor Vehicles. The request must also include a copy of a government-issued identification card and a copy of a recent utility bill or bank or insurance statement. It is essential that each copy be legible, display your name and current mailing address, and the date of issue. As of September 21, 2018, it is free to place, lift, or remove a security freeze. You may also place a security freeze for children under the age of 16. You may obtain a free security freeze by contacting any one or more of the following national consumer reporting agencies:

More information can also be obtained by contacting the Federal Trade Commission listed below.

Implementing an Identity Protection PIN (IP PIN) with the IRS:

To help protect against a fraudulent tax return being filed under your name, we recommend Implementing an Identity Protection PIN (IP PIN) with the IRS. An IP PIN is a six-digit number that prevents someone else from filing a tax return using your Social Security number or Individual Taxpayer Identification Number. The IP PIN is known only to you and the IRS. It helps the IRS verify your identity when you file your electronic or paper tax return. Even though you may not have a filing requirement, an IP PIN still protects your account.

If you don't already have an IP PIN, you may get an IP PIN as a proactive step to protect yourself from tax-related identity theft. If you want to request an IP PIN, please note: you must pass an identity verification process; and Spouses and dependents are eligible for an IP PIN if they can pass the identity verification process. The fastest way to receive an IP PIN is by using the online Get an IP PIN tool found at: <https://www.irs.gov/identity-theft-fraud-scams/get-an-identity-protection-pin>. If you wish to get an IP PIN and you don't already have an account on IRS.gov, you must register to validate your identity.

Some items to consider when obtaining an IP PIN with the IRS:

- An IP PIN is valid for one calendar year.
- A new IP PIN is generated each year for your account.
- Logging back into the Get an IP PIN tool, will display your current IP PIN.
- An IP PIN must be used when filing any federal tax returns during the year including prior year returns.
