Re: Notice of Data Event

To Whom It May Concern:

We represent Assumption University ("AU"), located at 500 Salisbury St., Worcester, MA 01609, and are writing to notify your office of an incident that may affect the security of certain personal information relating to approximately twelve (12) Maryland residents. This notice may be supplemented with any new significant facts learned subsequent to its submission. By providing this notice, AU does not waive any rights or defenses regarding the applicability of Maryland law, the applicability of the Maryland data event notification statute, or personal jurisdiction.

Nature of the Data Event

On April 4, 2023, AU discovered unusual activity occurring on certain employee email accounts. Upon this discovery, AU quickly initiated an investigation which included working with third-party forensic specialists to understand the nature and scope of the activity. AU's investigation determined that two AU email accounts were subject to unauthorized access between March 4, 2023, and April 4, 2023, and that data may have been accessed by an unauthorized actor during that time. As a result, AU performed a comprehensive review of the data determined to be at risk to assess the type of information potentially affected and to whom it related. On September 18, 2023, AU completed this review and determined sensitive information of individuals was potentially affected.

The information that could have been subject to unauthorized access includes name, Social Security number, financial account access information, and financial account number.

Notice to Maryland Residents

On November 17, 2023, AU provided written notice of this incident to approximately twelve (12) Maryland residents. Written notice is being provided in substantially the same form as the letter attached here as ***Exhibit A***.

Other Steps Taken and To Be Taken

Upon discovering the event, AU moved quickly to investigate and respond to the incident, assess the security of AU systems, and identify potentially affected individuals. Further, AU notified law enforcement regarding the event. AU is also working to implement additional safeguards and training to its employees. AU is providing access to credit monitoring services for two (2) years, through TransUnion, to individuals whose personal information was potentially affected by this incident, at no cost to these individuals.

Additionally, AU is providing impacted individuals with guidance on how to better protect against identity theft and fraud. AU is providing individuals with information on how to place a fraud alert and security freeze on one's credit file, contact details for the national consumer reporting agencies, information on how to obtain a free credit report, a reminder to remain vigilant for incidents of fraud and identity theft by reviewing account statements and monitoring free credit reports, and encouragement to contact the Federal Trade Commission, their state Attorney General, and law enforcement to report attempted or actual identity theft and fraud. AU is providing written notice of this incident to relevant regulators, as necessary.

Monitor Your Accounts

Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order a free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. Consumers may also directly contact the three major credit reporting bureaus listed below to request a free copy of their credit report.

Consumers have the right to place an initial or extended “fraud alert” on a credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If consumers are the victim of identity theft, they are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should consumers wish to place a fraud alert, please contact any of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer’s express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in a consumer’s name without consent. However, consumers should be aware that using a credit freeze to take control over who gets access to the personal and financial information in their credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application they make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, consumers cannot be charged to place or lift a credit freeze on their credit report. To request a credit freeze, individuals may need to provide some or all of the following information:

1. Full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. Addresses for the prior two to five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver’s license or ID card, etc.); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if they are a victim of identity theft.

Should consumers wish to place a credit freeze or fraud alert, please contact the three major credit reporting bureaus listed below:
