Dear Mr. Karberg

In accordance with the Maryland Personal Information Protection Act, please accept this letter as the Alexandria Library's notice to the Office of the Attorney General, in accordance with Maryland Commercial Law Code §14-3504.

On or about June 26, 2023, the Alexandria Library (the "Library") became aware that it was the victim of a ransomware attack. Immediately the Library's management, IT Department and third-party cybersecurity experts were engaged to investigate the incident, secure personal information and protect the Library's network from compromise.

To date, our investigation revealed that threat actors first gained access to the Library's servers on or about April 3, 2023. Between June 19th and June 26th, 2023, the threat actors enumerated and encrypted portions of the network. The investigation could not confirm if personal information was ex-filtrated from servers; therefore, approximately 9 Maryland residents may have potentially been affected by this incident. To date, there is no evidence that personal information from any potentially affected individual has been misused.

Out of an abundance of caution and in accordance with Maryland law, the Library is notifying those potentially affected. The notices to those potentially affected will contain information about the incident, how to protect themselves, and how to obtain free credit reports. The draft notice letter is enclosed herein.

Notice to the Attorney General was delayed due to the Library's efforts to identify affected individuals from systems that were identified as compromised.

For further information about this data incident, you may contact Darius Davenport, at ddavenport@cwm-law.com.

Very truly yours,

Darius K. Davenport

September 27, 2023

Dear _____:

The Alexandria Library (the “Library”) writes to notify you of a data security incident that may have impacted you. This letter is to inform you about the incident, our response, and steps you may take to protect against possible misuse of your personal information, should you feel it appropriate to do so.

What Happened? On or about June 26, 2023, the Library became aware that it was the victim of a data incident. Immediately the Library’s management, IT and third-party cybersecurity experts were engaged to investigate the incident, secure personal information and protect the Library’s network from compromise. To date, our investigation revealed that malicious actors gained access to the network on or about April 3, 2023, and deployed ransomware to encrypt portions of the network between June 19 and June 26, 2023. The malicious actors’ network access was terminated as soon as it was detected. There is no definitive evidence that your personal information was accessed. However, because an unknown actor gained access to our network, we are providing this notice out of an abundance of caution. To date, we have not received any indication that your information was misused by an unauthorized individual.

What Information Was Involved? It is possible that data such as your Social Security number, military ID number, date of birth, passport number or financial account information may have been seen or accessed. This information is called your personal information. It tells others about you and is a part of your identity.

What We Are Doing. We take the confidentiality, privacy, and security of information in our care seriously. Information technology experts were immediately engaged and commenced an investigation to determine the nature and scope of the incident. While the investigation remains ongoing, we are taking steps now to implement additional safeguards and review policies and procedures relating to data privacy and security.

The Library has implemented additional security measures designed to prevent a reoccurrence of such incidents, and to protect the privacy of our employees, residents and vendors. Among other steps taken, we have installed a more robust cybersecurity solution across our network, strengthened our system’s architecture, and implemented stronger policies to prevent future attacks.

What You Can Do. We encourage you to remain vigilant by reviewing your account statements and monitoring your credit reports for suspicious activity. We also encourage you to review the “Steps You Can Take to Help Protect Your Information” pages enclosed herein.

For More Information. We understand that you may have some questions about this incident that are not addressed in this letter. Should you have additional questions, please contact Alexandria Library Deputy Director, Luis Labra, at llabra@alexlibraryva.org or by calling 703-746-1701 between the hours of 9:00 a.m. to 5:00 p.m. Eastern Standard Time, Monday through Friday excluding major US holidays.

We apologize for any inconvenience that may have arisen as a result of this incident and appreciate your understanding as we have worked to resolve this issue.

Sincerely,

Rose Dawson,
Executive Director
Alexandria Public Library

Steps You Can Take to Help Protect Your Information

Check Your Accounts

We urge you to stay alert for incidents of identity theft and fraud, review your account statements, and periodically check your credit reports for suspicious activity. Under U.S. law, you are eligible for one free credit report each year from each of the three major credit reporting bureaus. To order your free credit report, visit annualcreditreport.com or call toll-free 877-322-8228. You may also reach out to the three major credit bureaus directly to request a free copy of your credit report.

You have the right to place a security freeze on your credit report. The security freeze will stop a consumer reporting agency from giving out personal or financial information in your credit report without your consent. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. Note: using a security freeze to take control over who gets access to your credit report may delay or prevent any new loan, credit, mortgage, or any other credit extension request or application you make from being approved timely. Under federal law, you cannot be charged to place or lift a security freeze on your credit report. If you wish to place a security freeze, please reach out to these major consumer reporting agencies:

Experian
P.O. Box 9554
Allen, TX 75013
888-397-3742

experian.com/freeze/center

TransUnion
P.O. Box 160
Woodlyn, PA 19094

Equifax
P.O. Box 105788
Atlanta, GA 30348-5788
800-685-1111
equifax.com/personal/credit-report-services

To request a security freeze, you will need to provide these items:

1. Your full name with middle initial and suffix (Jr., Sr., II, III, etc.)
2. Social Security number
3. Date of birth
4. The addresses where you have lived over the last five years, if you have moved
5. Proof of current address, such as a current utility bill or telephone bill
6. A clear photocopy of a government-issued identification card (state driver's license or ID card, military ID, etc.)
7. If you are a victim of identity theft, show a copy of either the police or investigative report or complaint to a law enforcement agency about identity theft

Instead of a security freeze, you have the right to place an initial or extended fraud alert on your file at no cost. An initial fraud alert is a one-year alert that is placed on a consumer's credit file. Businesses

are required to take steps to verify a consumer's identity before extending new credit once they see a fraud alert on a credit file. If you are a victim of identity theft, you are eligible for an extended fraud alert. This is a fraud alert lasting seven years. If you wish to place a fraud alert, please reach out to any one of these agencies:

Experian
P.O. Box 9554
Allen, TX 75013
