Dear Attorney General Brown:

Husch Blackwell LLP represents Vericast Digital Corp. (“Vericast,” “our,” or “we”), headquartered in San Antonio, Texas. We write to provide you with an update for a data security incident described in more detail below. Vericast takes its security and privacy obligations with respect to the personal information of residents in your state very seriously.

It is also our understanding that Delta Dental notified your office of the security incident, but we do not possess a copy of that notification. Notwithstanding Delta Dental's notification, as the data owner, pursuant to Md. Code, Com. § 14-1305, Vericast provides this supplemental notification to your office, and to confirm that Vericast has also notified its employees who were affected by this Delta Dental incident.

Details of Security Incident Received from Delta Dental:

On June 1, 2023, Delta Dental learned unauthorized actors exploited a vulnerability affecting the MOVEit file transfer software application. After being alerted of the incident, Delta Dental launched an investigation and took steps to contain and remediate the incident. Delta Dental stopped access to the MOVEit software, removed the malicious files, conducted an analysis of the MOVEit database, applied the recommended patches, reset administrative passwords to the MOVEit system, and enhanced unauthorized access monitoring related to MOVEit Transfer file access, malicious activity, and ransomware activity.

On July 6, 2023, the investigation confirmed that Delta Dental information on the MOVEit platform had been accessed and acquired without authorization between May 27 and May 30, 2023. Delta Dental then engaged independent third-party experts in computer forensics, analytics and data mining to determine what information was impacted and with whom it is associated.

Delta Dental concluded the investigation on or about November 27, 2023. In the investigation, the third-party forensic analysts determined that personal information, including PHI, associated with Vericast employees was affected. Delta Dental notified law enforcement about this incident, and Vericast understands that Delta Dental continues to cooperate with law enforcement.

Information Impacted:

- Protected Health Information
- Date of Birth
- Social Security Number.

Please note that not every individual had the same information categories affected.

Number of Maryland Residents Affected:

A total of sixteen (16) residents of Maryland were affected by this security incident. A list of affected residents in your jurisdiction is available for your reference in Schedule 2.

Steps Taken:

Vericast remains in contact with Delta Dental and provided authorization for Delta Dental to notify affected individuals directly. In addition to Delta Dental's notification to affected individuals, Delta Dental committed to providing free identity monitoring services to the affected

DELTA DENTAL'S NOTIFICATION TO VERICAST EMPLOYEES

January 10, 2024

Notice of Data Breach

Dear [REDACTED],

Delta Dental of California and affiliates ("Company")¹ experienced a data security incident involving the MOVEit Transfer ("MOVEit") software, an application used by our company and many organizations worldwide. We take the privacy and security of your information seriously, and sincerely apologize for any concern or inconvenience this may cause you. This letter provides information about what happened, how to help protect your information and resources offered to assist you.

What Happened?

Progress Software announced a previously unknown vulnerability within their widely used MOVEit file-transfer software program. This vulnerability led to a global data security incident that is reported to have impacted many organizations, including corporations, government agencies, insurance providers, pension funds, financial institutions, state education systems and more.

On June 1, 2023, the Company learned unauthorized actors exploited a vulnerability affecting the MOVEit file transfer software application. Immediately after being alerted of the incident, we launched a thorough investigation and took steps to contain and remediate the incident. We stopped access to the MOVEit software, removed the malicious files, conducted a thorough analysis of the MOVEit database, applied the recommended patches, and reset administrative passwords to the MOVEit system. We also enhanced unauthorized access monitoring related to MOVEit Transfer file access, malicious activity, and ransomware activity.

On July 6, 2023, our investigation confirmed that the Company information on the MOVEit platform had been accessed and acquired without authorization between May 27, 2023 and May 30, 2023. At that time, we promptly engaged independent third-party experts in computer forensics, analytics, and data mining to determine what information was impacted and with whom it is associated.

This extensive investigation and analysis of the data recently concluded and was a critical component in enabling us to identify specific personal information that was acquired from the MOVEit platform. Upon that determination, we have worked diligently to identify any impacted individuals to provide notification. On November 27, 2023, we determined your personal information was affected. In addition to our own investigation, we have also notified law enforcement of the incident and have been cooperating with them since.

Recommended Steps to Help Protect Your Information

- 1. Website and Enrollment.** Go to <https://enroll.krollmonitoring.com> and follow instructions for enrollment using your Membership Number provided in the letter.
- 2. Activate the credit monitoring** provided as part of your Kroll identity monitoring membership. Note: You must have established credit and access to a computer and the internet to use this service. If you need assistance, Kroll will be able to assist you.
- 3. Telephone.** Contact Kroll at 800-693-2571 to gain additional information about this event and speak with knowledgeable representatives about the appropriate steps to take to protect your credit identity.
- 4. Review your credit reports.** We recommend that you remain vigilant by reviewing account statements and monitoring credit reports. Under federal law, you also are entitled every 12 months to one free copy of your credit report from each of the three major credit reporting companies. To obtain a free annual credit report, go to www.annualcreditreport.com or call 1-877-322-8228. You may wish to stagger your requests so that you receive a free report by one of the three credit bureaus every four months.

You should also know that you have the right to file a police report if you ever experience identity fraud. Please note that in order to file a crime report or incident report with law enforcement for identity theft, you will likely need to provide some kind of proof that you have been a victim. A police report is often required to dispute fraudulent items. You can report suspected incidents of identity theft to local law enforcement or to the Attorney General.

- 5. Place Fraud Alerts** with the three credit bureaus. If you choose to place a fraud alert, we recommend you do this after activating your credit monitoring. You can place a fraud alert at one of the three major credit bureaus by phone and also via Experian's or Equifax's website. A fraud alert tells creditors to follow certain procedures, including contacting you, before they open any new accounts or change your existing accounts. For that reason, placing a fraud alert can protect you, but also may delay you when you seek to obtain credit. The contact information for all three bureaus is as follows:

Credit Bureaus

Equifax Fraud Reporting
1-866-349-5191
P.O. Box 105069
Atlanta, GA 30348-5069
www.equifax.com

Experian Fraud Reporting
1-888-397-3742
P.O. Box 9554
Allen, TX 75013
www.experian.com

TransUnion Fraud Reporting
1-800-680-7289
P.O. Box 2000
Chester, PA 19022-2000
www.transunion.com

It is necessary to contact only ONE of these bureaus and use only ONE of these methods. As soon as one of the three bureaus confirms your fraud alert, the others are notified to place alerts on their records as well.

You will receive confirmation letters in the mail and will then be able to order all three credit reports, free of charge, for your review. An initial fraud alert will last for one year.

Please Note: No one is allowed to place a fraud alert on your credit report except you.

- 6. Security Freeze.** By placing a security freeze, someone who fraudulently acquires your personal identifying information will not be able to use that information to open new accounts or borrow money in your name. You will need to contact the three national credit reporting bureaus listed above to place the freeze. Keep in mind that when you place the freeze, you will not be able to borrow money, obtain instant credit, or get a new credit card until you temporarily lift or permanently remove the freeze. There is no cost to freeze or unfreeze your credit files.

- 7. You can obtain additional information** about the steps you can take to avoid identity theft from the following agencies. The Federal Trade Commission also encourages those who discover that their information has been misused to file a complaint with them.
