Re: Notification of Security Incident

Dear Attorney General Frosh:

We are writing to inform you that our client George F. Young ("GFY") is notifying 1 individual who resides in Maryland of a data security incident that impacted some of their personal information.

On October 21, 2023, GFY was impacted by a ransomware attack, which encrypted its systems for a short period of time. GFY immediately hired counsel who retained third party experts to begin restoring systems and performing an investigation of the scope of the incident. The review was completed on February 7, 2024, at which point GFY conducted additional investigation into address information for all impacted individuals. GFY has no evidence that any individual's personal information was accessed or viewed, but wanted to notify individuals out of an abundance of caution.

The information contained in the mailbox varied by individual but included date of birth, Social Security numbers, bank account information, driver's license and state ID numbers, medical information, medical insurance information, passport numbers, U.S. military ID numbers, and foreign identification numbers.

GFY takes the security of personal information very seriously and has taken steps to prevent a reoccurrence by increasing the monitoring of its networks, further improving access controls, and hardening its systems. GFY notified law enforcement of this incident.

GFY mailed the attached notification to all potentially affected individuals beginning April 17, 2024.

GFY is offering identity theft protection services to individuals impacted by this incident through a data breach and recovery service, CyberScout by TransUnion. Services include 12 months of credit monitoring, a \$1,000,000 identity fraud loss reimbursement, fraud consultation, and identity
