Dear Attorney General Brown:

We represent YMCA of Central Florida (“YMCA”), a nonprofit organization with multiple locations in Central Florida, with respect to a data security incident described in more detail below. YMCA takes the security and privacy of the information in its control seriously, and it has taken steps to enhance its security capabilities.

This letter will serve to inform you of the nature of the incident, the number of Maryland residents being notified, what information has been compromised, and the steps that YMCA is taking to restore the integrity of its information system. We have also enclosed hereto a sample of the notification to the potentially impacted individuals, which includes an offer of free credit monitoring.

1. Nature of the Security Incident

On May 20, 2024, YMCA detected it was the target of a cybersecurity incident. An unauthorized third party attempted to infiltrate the YMCA’s computer network and access internal department files. Upon detecting the incident, YMCA moved quickly to secure its network environment and launched a thorough investigation. The investigation was performed with the help of independent IT security and forensic investigators to determine the scope and extent of the potential unauthorized access to our systems and any personal information. YMCA’s investigation concluded on May 31, 2024.

Although YMCA has found no evidence information has been specifically accessed for misuse, it is possible individuals' names, mailing addresses, driver's license numbers, date of births and /or Social Security numbers could have been exposed. Notably, the types of information affected were different for each individual, and not every individual had any or all of the elements listed above exposed.

3. Steps Taken

Upon learning of this incident, YMCA moved quickly to initiate a response plan, which included conducting an investigation with the assistance of third-party forensic specialists. Since then, YMCA has been working with law enforcement to help respond to the incident, along with cybersecurity experts to review all policies and procedures relating to the security of YMCA's systems.

Although YMCA is not aware of any evidence of misuse of personal information, YMCA extended to all potentially impacted individuals an offer for free credit monitoring and identity theft protection through Cyberscout, a TransUnion company. This service will include 12 months of credit monitoring, along with fully managed identity theft recovery service, should the need arise.
