Re: WPG Advisors, LLC – Data Incident
Our File No. 41088.00276

Dear Sir or Madam:

We are writing to notify you of a data security incident involving 2 Maryland residents. We are submitting this notice on behalf of our client, WPG Advisors, LLC (“WPG”).

Nature Of The Security Breach

In July 2024, WPG became aware that a WPG email account was accessed by an unknown threat actor. WPG immediately launched an extensive investigation to determine the nature and scope of the event, worked quickly to secure the systems, and investigated what happened to determine the extent of unauthorized access to information by the unknown actor. Through this investigation, WPG determined that an unknown actor gained access to and email account and WPG has since secured this email account.

Notice is being sent to the 2 Maryland residents subsequent to this letter.

Steps Being Taken Related To The Incident

In an abundance of caution, WPG performed a comprehensive review of the contents of the affected systems to determine what information could be contained in the impacted files and to whom the information related. The review was recently completed. At the time of the security event, the name, address and financial information of certain individuals could have been stored within the impacted systems. To date, WPG has not received reports of any fraudulent misuse of any information potentially impacted by the event.

In addition, WPG is offering identity theft protection services through IDX, A ZeroFox Company, the data breach and recovery services expert. IDX identity protection services include: 12 months of credit and CyberScan monitoring, a \$1,000,000 insurance reimbursement policy, and fully managed id theft recovery services. With this protection, IDX will help you resolve issues if your identity is compromised.

Should you need additional information regarding this matter, kindly contact me.

Very truly yours,

Jeremy J. Zacharias
