Re: Notice of Data Event

To Whom It May Concern:

We represent Texas Tech University Health Sciences Center (“TTUHSC”), located at 3601 4th Street, MS 7755, Lubbock, Texas 79430, and are writing to notify your Office of an incident that may affect the security of information relating to certain Maryland residents. The investigation into this matter is ongoing, and this notice will be supplemented with any new significant facts learned subsequent to its submission. By providing this notice, TTUHSC does not waive any rights or defenses regarding the applicability of Maryland law, the applicability of the Maryland data event notification statute, or personal jurisdiction.

Nature of the Data Event

On or about September 29, 2024, TTUHSC identified information technology issues that resulted in a temporary disruption to certain computer systems and applications. Immediately after identifying these issues, TTUHSC took steps to ensure the security of the TTUHSC network and began an investigation with the assistance of third-party specialists in order to determine the nature and scope of the incident. The investigation confirmed that a cybersecurity event caused the technology issues which involved the access to or removal of certain files and folders from TTUHSC systems between September 17, 2024 and September 29, 2024. As a result, TTUHSC conducted a detailed review of the systems that were involved in order to determine what information they may contain and to whom the information belongs. While ongoing, on or about December 16, 2024, TTUHSC completed a review that determined certain Maryland resident information may be involved. While the information varies for each individual, the potentially impacted information includes name, driver’s license number, government issued-identification number, Social Security number, financial account information, health insurance information, and medical information, including medical records numbers, billing/claims data, and diagnosis and treatment information.

Notice to Maryland Residents

On or about November 25, 2024, TTUHSC posted notice of this incident on the TTUHSC web site and distributed notice to relevant media outlets. On or about January 24, 2025, TTUHSC provided written notice of this incident to approximately one hundred forty-five (145) Maryland residents. Written notice is being provided in substantially the same form as the letter attached here as ***Exhibit A***. Notification to individuals is ongoing and TTUHSC may supplement this notification if it is determined that a significant number of additional Maryland residents will receive notice.

Other Steps Taken and To Be Taken

Upon discovering the event, TTUHSC moved quickly to investigate and respond to the incident, assess the security of TTUHSC systems, and identify potentially affected individuals. Further, TTUHSC notified federal law enforcement and applicable regulators. TTUHSC is also working to implement additional safeguards to enhance system protection and monitoring and is reviewing relevant policies and procedures. TTUHSC is providing access to complimentary credit monitoring services for twelve (12) months, through IDX, to individuals whose information was potentially affected by this incident.

Additionally, TTUHSC is providing impacted individuals with guidance on how to better protect against identity theft and fraud, including information on how to place a fraud alert and security freeze on one's credit file, the contact details for the national consumer reporting agencies, information on how to obtain a free credit report, a reminder to remain vigilant for incidents of fraud and identity theft by reviewing account statements and monitoring free credit reports and health care and health insurance billing statements, and encouragement to contact the Federal Trade Commission, their state Attorney General, and law enforcement to report attempted or actual identity theft and fraud. TTUHSC is providing written notice of this incident to relevant state and federal regulators, as required.

NOTICE OF <<SECURITY INCIDENT/DATA BREACH>>

Dear <<First Name>> <<Last Name>>:

The Texas Tech University Health Sciences Center is writing to inform you of a recent incident which may impact your information. This notice provides you with details about the event, our response, and resources available to you to help protect your information from possible misuse, should you determine it is appropriate to do so.

What Happened? In September 2024, we identified issues that resulted in a temporary disruption to some computer systems and applications. Immediately after identifying these issues, we took steps to ensure the security of the network and began an investigation. The investigation subsequently confirmed a cybersecurity event caused the temporary disruption as well as access to or removal of certain files and folders from our network between September 17, 2024 and September 29, 2024. We then conducted a detailed review of the systems that were involved in order to determine what information they may contain and to whom it belongs.

What Information Was Involved? While the investigation is ongoing, on or about December 16, 2024 we completed a review that determined that your information was present in files which may be potentially affected by this incident. The potentially affected information may include your name and <<Variable Data - English>>. We are not aware of any actual or attempted identity theft or fraud in connection with this event.

What We Are Doing. The confidentiality, privacy, and security of information in our care is among our highest priorities. We are reviewing existing security policies and procedures as part of the investigation and are implementing additional safeguards to enhance system protection and monitoring.

Out of an abundance of caution, we are offering you access to complimentary credit monitoring and identity restoration assistance services for <<12/24>> months through IDX. A description of services and instructions regarding how to enroll can be found within the enclosed *Steps You Can Take to Help Protect Your Information*. Please note that you must complete the enrollment process yourself as we are not permitted to enroll you in these services.

What You Can Do. We encourage you to remain vigilant against incidents of identity theft and fraud, to review account statements and monitor your credit reports, as well as health care and health insurance billing statements, for suspicious activity and to detect errors. In addition to enrolling in the credit monitoring services being offered to you, you may also review the information contained in the enclosed *Steps You Can Take to Help Protect Your Information* for more steps you can take, should you feel it is appropriate to do so.

Monitor Your Accounts

Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order a free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. Consumers may also directly contact the three major credit reporting bureaus listed below to request a free copy of their credit report.

Consumers have the right to place an initial or extended “fraud alert” on a credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If consumers are the victim of identity theft, they are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should consumers wish to place a fraud alert, please contact any of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer’s express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in a consumer’s name without consent. However, consumers should be aware that using a credit freeze to take control over who gets access to the personal and financial information in their credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application they make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, consumers cannot be charged to place or lift a credit freeze on their credit report. To request a credit freeze, individuals may need to provide some or all of the following information:

1. Full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. Addresses for the prior two to five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver’s license or ID card, etc.); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if they are a victim of identity theft.

Should consumers wish to place a credit freeze or fraud alert, please contact the three major credit reporting bureaus listed below:

Este aviso le proporciona detalles sobre el evento, nuestra respuesta y los recursos a su disposición para ayudarle a proteger su información de un posible uso indebido, en caso de que lo considere oportuno.

¿Qué ocurrió? En septiembre de 2024, identificamos problemas que provocaron una interrupción temporal de algunos sistemas y aplicaciones informáticos. Inmediatamente después de identificar estos problemas, tomamos medidas para garantizar la seguridad de la red e iniciamos una investigación. La investigación confirmó posteriormente que, entre el 17 al 29 de septiembre de 2024, un evento de ciberseguridad causó la interrupción temporal, así como el acceso a determinados archivos y carpetas de nuestra red o su eliminación. Seguidamente, llevamos a cabo una revisión detallada de los sistemas implicados para determinar qué información pudieron contener y a quién pertenecía.

¿Qué información se vio involucrada? Si bien la investigación está en curso, el 16 de diciembre de 2024 o alrededor de esta fecha, completamos una revisión que determinó que su información estaba presente en archivos que pudieran estar potencialmente afectados por este incidente. La información potencialmente afectada pudiera incluir su nombre y <<Variable Data - Spanish>>. No conocemos ningún hecho o tentativa de robo de identidad o fraude relacionado con este suceso.

Qué estamos haciendo. La confidencialidad, la privacidad y la seguridad de la información a nuestro cargo es una de nuestras mayores prioridades. Como parte de la investigación, estamos revisando las políticas y procedimientos de seguridad existentes y estamos aplicando salvaguardias adicionales para mejorar la protección y supervisión del sistema.

Como precaución adicional, también le ofrecemos acceso gratuito a servicios de monitoreo de crédito y restauración de identidad gratuitos durante <<12/24>> meses a través de IDX. Monitoree sus cuentas

Según la ley de los EE. UU., un consumidor tiene derecho a solicitar un informe de crédito gratuito por año de cada una de las tres principales agencias de informes de crédito: Equifax, Experian y TransUnion. Para solicitar un informe de crédito gratuito, visite www.annualcreditreport.com o llame al número gratuito 1-877-322-8228. Los consumidores también pueden comunicarse directamente con las tres principales agencias de informes de crédito que se enumeran a continuación para solicitar una copia gratuita de su informe crediticio.

Los consumidores tienen derecho a colocar una “alerta de fraude” inicial o extendida en un expediente de crédito, sin costo alguno. Una alerta de fraude inicial es una alerta que dura un año y que se incluye en el expediente de crédito del consumidor. Al ver una alerta de fraude en el expediente de crédito de un consumidor, una empresa está obligada a tomar medidas para verificar la identidad del consumidor antes de concederle un nuevo crédito. Si los consumidores son víctimas de robo de identidad, tienen derecho a una alerta de fraude extendida, que es una alerta de fraude de siete años de duración. Si los consumidores desean colocar una alerta de fraude, deben comunicarse con cualquiera de las tres principales agencias de informes de crédito que se enumeran a continuación.

Como alternativa a una alerta de fraude, los consumidores tienen derecho a colocar un “congelamiento de crédito” en un informe de crédito, lo que prohibirá que una agencia de crédito divulgue información en el informe de crédito sin la autorización expresa del consumidor. El congelamiento de crédito está diseñado para evitar que el crédito, los préstamos y los servicios se aprueben en nombre de un consumidor sin su consentimiento. Sin embargo, los consumidores deben saber que el uso de un congelamiento de crédito para controlar quién tiene acceso a la información personal y financiera en su informe crediticio puede retrasar, interferir o prohibir la aprobación oportuna de cualquier pedido o solicitud posterior que realicen con respecto a un nuevo préstamo, crédito, hipoteca, o cualquier otra cuenta que implique la concesión de un crédito. De conformidad con la ley federal, no se puede cobrar a los consumidores por colocar o levantar un congelamiento de crédito en su informe crediticio. Para solicitar un congelamiento de crédito, es posible que las personas deban proporcionar parte o la totalidad de la siguiente información:

1. Nombre completo (incluida la inicial del segundo nombre, así como Jr., Sr., III, etc.);
2. Número de Seguro Social;
3. Fecha de nacimiento;
4. Domicilios en los últimos dos a cinco años;
5. Comprobante de domicilio, como una factura actual de servicios públicos o de teléfono;
6. Fotocopia legible de una tarjeta de identificación emitida por el gobierno (licencia de conducir estatal o tarjeta de identificación estatal, etc.); y
7. Copia de la denuncia policial el informe de la investigación o la reclamación ante una agencia de orden público respecto del robo de identidad si es víctima de este delito.

Si los consumidores desean colocar un congelamiento de crédito o una de fraude, deben comunicarse con las tres principales agencias de informes de crédito que se enumeran a continuación:
